

Against the Nazi deployment on April 14!

For a Europe of solidarity

Dortmund Nazis of the party “Die Rechte” alongside with other European Nazis are mobilising for a Europe-wide demonstration in Dortmund on April 14. Their motto (“Europe awake!”) is reminiscent of National Socialism.

In big parts of Europe right-wing movements and parties are on the rise. Against this background the Dortmund Nazis try to present themselves and strengthen their position within the European far-right.

It's necessary to prevent that!

Let's make a stand against the shift to the right in Europe and the Nazi deployment in Dortmund. Let's show that we want an open, social and solidly united Europe but no nationalist ignorance! Let's show that we stand against every kind of right-wing demagoguery and exclusion!

Together against Nazis

The best way to do that is to work together: Nazi opponents, anti-fascist activists, people who are active in parties, trade unions, migrant organisations, parishes, LGBTI activists, local people – we all!

It's unbearable that Nazis try to establish a new kind of deployment in Dortmund every year. With their demo slogan they're advertising for months in an inhuman and Nazi-glorifying manner.

The “BlockaDo” alliance is in solidarity with everybody who wants to take action against the Nazi deployment on April 14. The diversity of the resistance is our strength!

See you on April 14 in the streets and public places!
